RB signing the docs off now; will scan and send over to you both along with saving the signed copy in the BD folder on the shared drive.

[REDACTED],

Who will the costs need to go and who is paying the bill? If its NPT then that would be quicker as I have got an account set up if its their consultants then it may take longer (if not set up). [REDACTED] is doing the internal docs which need signing off by Richard Bond, which she will chase tomorrow.

Cheers [REDACTED]

Hi [REDACTED]

We've been asked to carry out another site inspection for NPT but this time through their consultants (ESP - see email below).

It's a day of my time and a day for [REDACTED] - can you price it up with the current rates please.

An email to them setting out costs and our standard T&C's will be sufficient.

They'd like a price for the end of this week, and I've provisionally pencilled in next Wednesday to do the inspection.

The site is series of quarry tips at Godregraig, near Ystalyfera and the report will feed into a wider piece of work that ESP are doing for the council.

The work is exactly the same as that which we've already been doing for NPT.

Thanks

Subject: [External] Tip/Spoil above Godregraig School

Hi ██████████,

We're looking at Godregraig School for NPTCBC; ██████████ and ██████████ have asked if you can implement an inspection of the tips above as shown on our plan (too large to email): https://espcf15-my.sharepoint.com/:b:/g/personal/matt_earthsciencepartnership_com/EWduJK8iQo5KpUuhwBwwTpABc_ipMJ9hKHPaaxws-VsYtA?e=FHoz9B

They want something similar to what was produced for Pantteg – can you provide a cost to us for this? NPTCBC want us to engage you and incorporate findings into our geomorphological work.

We're under a bit of time pressure to complete our report in 3-4 weeks. If there's any problems let me know.

Kind regards,

██████████

██████████ CGeol RoGEP Specialist | Director | ██████████
