I presume you're referring to 'Version 2.0 – October 2022' which refers to the template, not the report. This is the version control for the report templates used for Welsh Government commissioned tip inspections.

We do not hold other versions of this report.

For all future correspondence, please direct to team mailbox [REDACTED].

Subject: Godre'r Graig inspection report

Hi [REDACTED]

Thank you for the July 2023 Inspection report regarding L44A, the authority has also provided the L44 reports this week.

I noticed that some of the pages are version 2 amended in October 2023. Could you provide me with the original version 1 report before the changes.

Regards
